

Health, safety and radiation safety briefing for the practical course at the Department of Physics of the University of Cologne during the summer semester 2021

This briefing is required for the participation in the following courses:

- practical course B in 2 and 3 semesters at Institute for Nuclear Physics, at the Institute of Physics I (Astrophysics) and at the Institute of Physics II (solid state physics),
- practical course M at Institute for Nuclear Physics, at the Institute of Physics I (Astrophysics) and at the Institute of Physics II (solid state physics),
- practical course of the lectures Modern Physics I, II or III.

I confirm that I participated in this briefing and that I understood all instructions. The briefing included the general safety at the work place, what to do in case of emergencies and the instructions with respect to radiation safety, working with X-rays and hazardous materials. I acknowledge that this certificate is stored for at least 5 years.

Validity of the briefing: 1 year
